

Kingdom Of The Outlands Equestrian Handbook

Revised May 19, 2008

The rules contained in this handbook are derived from SCA wide rules and the Outlands Kingdom Equestrian Officer and can be modified and/or changed, without notice at any time by the SCA, the Kingdom Earl Marshal and/or the Kingdom Equestrian Officer.

Introduction to the Society Equestrian Handbook

As our equestrian community marks its 40th anniversary, we have chosen to examine how we conduct equestrian activities within our Society. There have been a number of changes made to the Society Equestrian Handbook that reflect the experiences we have had and the tremendous growth of equestrian activities. Please take a moment to note the changes, as they reflect a different approach to how we intend to conduct equestrian activities at our events. The most significant changes are intended to streamline the process of authorizing equestrian activities and to address how we conduct individual equestrian authorizations. It places greater emphasis on individual accountability for equestrians and more opportunity to enjoy equines at events. With proper management the inherent risks associated with equestrian activities can be minimized in order to allow us to enjoy these magnificent animals.

SCA rules are in black type. Outlands specific rules, additions, or clarifications to the Society rules are referenced in green (*italics*) type. This will also include any updates, additions, or clarifications from the SEO.

Appendix 1- Insurance instructions	14

I. Equestrian Program

A. Society Equestrian Officer

1. There shall be a Society Equestrian Officer (SEO) to coordinate equestrian activities and maintain a handbook of regulations with agreement of the governing body within the SCA. The SEO is a deputy to the Society Earl Marshal.
2. The SEO shall oversee the Kingdom Equestrian Officers.
3. The SEO shall have authority to investigate and address incidents involving equestrian activities within the Society. This authority includes the right to sanction individuals who engage in inappropriate behavior, up to and including the removal of equestrian authorizations.
4. The SEO shall have the authority to warrant deputies to assist in conducting equestrian activities. Their authority will be as determined by the SEO, and may include serving as equestrian marshals. Upon the appointment of a new SEO all existing deputy warrants will terminate.

B. Kingdom Equestrian Officers

1. Each Kingdom that intends to conduct equestrian activities shall designate a Kingdom Equestrian Officer (KEO). This designation shall be made by the Kingdom Earl Marshal and Crown and should consider the individual's experience and familiarity with equestrian activities within the Society. Each Kingdom is free to title their KEO as they deem fit.
2. The duties of the KEO include:
 - (a) Oversight of equestrian activities within the Kingdom. The KEO shall have authority to investigate and address incidents involving equestrian activities within their Kingdom. This authority includes the right to sanction individuals who engage in inappropriate behavior, up to and including the removal of equestrian authorizations.
 - (b) Reporting as follows:
 - (1) Quarterly reports- The KEO must generate, at minimum, quarterly reports on equestrian activities to the Kingdom Earl Marshal with a collateral report to the Society Equestrian Officer.
 - (2) Accident reports- In the event of an injury to a person or animal, requiring medical attention, occurring at a Society-sponsored equestrian activity, the KEO will make an oral report to the Kingdom Earl Marshal, Kingdom Seneschal and the SEO within 24 hours of being notified of the incident, followed by a written report to the same within 72 hours delineating the circumstances of the incident. If the injury is to a person, then a copy of the report should also go to the Kingdom Chirurgeon.
 - (c) Maintaining a roster that indicates those individuals warranted as equestrian marshals, as well as those authorized to participate in equestrian activities.
 - (d) Monitoring the mandatory notification of the SCA corporate office of SCA equestrian events and payment of appropriate fees.
 - (e) Maintaining records relating to equestrian matters, including but not limited to all incident reports, and copies of insurance forms after receipt from the Equestrian Marshal in Charge (EqMIC) of equestrian events. The KEO shall verify that waivers are handled in compliance with Kingdom procedures.
 - (f) Upon assuming the office of KEO, providing the SEO with current contact

information.

3. The KEO shall have the authority to warrant deputies to assist in conducting equestrian activities. Their authority will be as determined by the KEO, and may include serving as equestrian marshals. Upon the appointment of a new KEO all existing deputy warrants will terminate.

C. Equestrian Marshals.

1. General Requirements: There are three near-equal priorities in marshaling; safety, fair witness, and showmanship. Overemphasizing any one at the expense of the others will tend to make the equestrian activities less enjoyable for everyone (although, if you must go overboard on one, pick safety).

2. A Marshal may be authorized *by the KEO* after demonstrating the ability to oversee equestrian activities, judge an equestrian's authorization, and inspect weapons and equipment.

3. Unless warranted or rostered by the KEO as an officer of the kingdom, a marshal may not be the Marshal in Charge of an event or sign the paperwork to authorize equestrians.

4. Kingdoms may have other types of Marshals other than Authorized Marshals (local Knight Marshals, Constables, etc.) as they see fit. These individuals may be warranted or rostered by the KEO of the Kingdom. However, unless the marshal has undergone a Marshal's Authorization, they shall not give final approval of the suitability of weapons or equipment, or be involved in the authorization of participants. *(All Outlands EQ marshals are authorizing marshals. Marshals may only authorize riders in activities they are themselves authorized. Exceptions may be granted by the KEO.)*

5. Only the KEO or a designated Deputy may perform a Marshal's Authorization. They must witness the authorization and execute the appropriate paperwork to ensure that the authorization is registered. At a minimum, a Marshal's Authorization shall include the following:

(a) The candidate must have a good working knowledge of the Equestrian Handbook and any additional Kingdom rules or conventions.

(b) The candidate must be willing to enforce the Equestrian Handbook and any additional Kingdom rules or conventions.

(c) The candidate must have a good working knowledge of the Society equestrian equipment standards and any additional Kingdom equestrian equipment standards.

(d) The candidate must demonstrate the ability to conduct an inspection of armor, weapons and equipment used in equestrian activities.

(e) The candidate must demonstrate the ability to conduct an inspection of equestrians.

(f) The candidate must demonstrate an awareness of the risks inherent to equestrian activities.

(g.) The candidate must demonstrate the ability to safely control SCA equestrian activities to minimize those risks.

6. The KEO or a designated Deputy may restrict the ability of an Authorized Marshal to authorize equestrians in whole or for certain activities. *(All Outlands EQ marshals are authorizing marshals. Marshals may only authorize riders in activities they are themselves authorized. Exceptions may be granted by the KEO.)*

7. All warranted or rostered marshals shall be members of the Society for

II. Equestrian Authorizations

A. Authorization Requirements. An individual must be an authorized equestrian in order to ride at an event. The only exceptions to this requirement are:

1. An individual in the process of authorizing under the supervision of an Equestrian Marshal. *This includes riding at practices to gain the required skills.*
2. An individual being led in a processional. The groom leading the horse shall be an authorized equestrian.

3. Individual[s] demonstrating an activity with the approval of the Kingdom Equestrian Officer. The Equestrian Marshal in Charge of the event (EqMIC) shall oversee the demonstration. This demonstration is subject to the following requirements:

- (a) Equestrian waiver[s] must be executed prior to conducting any demonstration under this exception.

- (b) The demonstration must be conducted under the supervision of a warranted equestrian marshal.

- (c) The EqMIC shall include any waivers signed pursuant to this exception with their event report. Additionally, a description of the demonstration and any comments or concerns should be included in the report.

B. Authorization Types. Equestrians are authorized to participate according to the activities they engage in. Authorizations shall take place at a SCA activity such as an event and/or practice. See III. Event Requirements.

1. General Riding. An individual may be authorized solely for riding. In conducting an authorization, the Authorizing Equestrian Marshal should consider the following:

- (a) The individual must demonstrate familiarity with the Society Equestrian Handbook, any Kingdom specific equestrian requirements, and the nature of equestrian activities within the Society.

- (b) The individual must demonstrate an awareness of the risks inherent to equestrian activities, including recognition of how their current skill level relates to the horse they intend to ride.

- (c) The individual must demonstrate the ability to safely control their horse while engaging in SCA equestrian activities.

2. Mounted Games. Additionally, an equestrian may be authorized for participation in mounted games. In addition to the foregoing, the Authorizing Equestrian Marshal should consider the following:

- (a) The individual must demonstrate familiarity with the equipment used in SCA mounted games.

- (b) The individual must demonstrate the ability to safely control their horse while engaging in SCA equestrian activities while encumbered by the appropriate equipment.

3. Minors may be authorized as equestrians subject to the following limitations:

- (a) Minors must be at least ten years of age in order to participate in equestrian activities.

- (b) A parent or legal guardian must be immediately available to the Equestrian

Marshal in Charge when the minor is engaged in equestrian activities, including serving as ground crew.

(c) A parent or legal guardian must attend the authorization process and execute a waiver authorizing the minor to participate in equestrian activities. The parent or legal guardian must also sign the authorization form.

(d) Minors must wear a safety helmet and heeled shoes when mounted.

4. Individual Kingdoms may require special authorizations for certain activities such as mounted archery, mounted combat, jousting and driving.

(Part V.)

C. Waiver requirement. The equestrian waiver must be signed and provided to the Authorizing Equestrian Marshal as part of the authorization procedure. This requirement does not apply to areas and countries that are covered by affiliate corporations.

(a) All Equestrian participants must sign the waiver. This includes riders, ground-crew, and anyone expected to come into direct contact with the horses.

D. Maximum term for authorization. No authorization may be for a period greater than 4 years. *Outlands authorizations are valid for 4 years.*

E. Out of Kingdom Authorizations. Valid authorization cards shall be accepted outside the issuing kingdom as proof of authorizations. Visitors with a valid authorization card from another kingdom must abide by the equestrian regulations of the kingdom they are visiting. Kingdoms may define additional requirements before renewing an authorization card for a person who has moved into that kingdom from another kingdom. *(The Kingdom of the Outlands does not require re-authorization for a renewal, for the person who has moved, if the card is current and the rider is in good standing with their previous kingdom.)*

F. Ground Crew. The EqMIC must approve all persons who serve as Ground Crew during an EQ event or practice. No authorization is required. Ground crew must wear closed toe shoes, demonstrate safe handling of equipment and weapons including correct way to hand equipment to a mounted rider, and demonstrate an ability to maneuver safely around the horses.

III. Event Requirements

A. Equestrian events. An autocrat or event steward wishing to include equestrian activities at an event shall arrange for a warranted equestrian marshal to serve as the Equestrian Marshal in Charge (EqMIC).

B. Equestrian Marshal in Charge. An Equestrian Marshal in Charge shall be responsible for the following:

1. At least 45 days in advance:

(a) Determine the suitability of the site for conducting equestrian activities.

(b) Notifying the KEO of the intention to conduct equestrian activities at the event.

(c) Ensuring that equestrian insurance coverage is activated. Equestrian insurance may be requested by the event steward or by the EqMIC with the event steward's approval. Instructions are contained in Appendix 1.

2. Prior to the event:

(a) Confirming that insurance has been activated.

(b) Performing a site assessment to determine if there is a need for site-specific requirements.

3. Day of the event:

(a) Verify all required signage has been posted in view at the event. There is a guide to the waivers and signage that may be found at:

http://www.sca.org/officers/equestrian/waiver_ann.pdf.

The general and state specific waivers may be found at:

<http://www.sca.org/docs/AdultEquestrianWaivers.pdf> Signage does not apply to areas and countries that are covered by affiliate corporations. Please note these links are subject to change and the EqMIC must use the most current forms.

(1) Signage at Parades: Upon arrival to the parade site, place the warning sign in the tacking area. SCA riders and crew shall sign the waiver prior to mounting and departing for the parade. SCA riders are not required to carry the warning signs on the parade route.

(b) Verify that all required health, safety and transportation documentation has been collected from those participating in equestrian activities. This includes collecting signatures on the appropriate waivers from those who have a high probability of coming into contact with equines.

(c) Overseeing the equestrian activities, including issues of equestrian participation and conduct. The EqMIC has authority to suspend an individual's right to participate in equestrian activities for the event where they are serving as EqMIC. If necessary, the EqMIC has the authority to advise the seneschal to withdraw SCA sanction from the equestrian portion of an event as outlined in Corpora.

4. Reporting the event:

(a) The EqMIC must send a written report of each equestrian event to the KEO within 10 business days after the event. This report shall include the total number in attendance, number of equines, number of riders, type of equestrian activities performed, and any concerns or incidents arising from the event.

(b) In the event of an injury to a person or animal, requiring medical attention, occurring at a Society-sponsored equestrian activity, the EqMIC will make an oral report to the Event Autocrat and the KEO within 24 hours of being notified of the incident, followed by a written report to the same within 72 hours delineating the circumstances of the incident. If the injury is to a person, then a copy of the report should also go to the Kingdom Chirurgeon and Kingdom Seneschal.

(c) In the event of a suspension of an individual's right to participate in equestrian activities, the EqMIC should include in their report a description of the circumstance that led to the suspension. The report should also include the names and contact information of parties or witnesses to the incident, as well as any statements relating to the incident.

5. The EqMIC may designate other warranted Equestrian Marshals to assist them in fulfilling their responsibilities. In the event of an infraction or incident, an Equestrian Marshal must report to the EqMIC, who shall undertake to resolve the issue as set out in section 3 (c) above.

C. Rider responsibility.

1. In order to participate in equestrian activities, each equestrian must accept responsibility for the following:

- (a) Taking reasonable and prudent steps to ensure the well being of any equines over which they have control.
- (b) Determining if there is a mount suitable for their use. They should consult the owner of, or person familiar with, any equine that they are not already familiar with prior to mounting.
- (c) Determining if there is suitable tack or equipment for their use.
- (d) Limiting their participation to those activities in which they can maintain control of their mount.
- (e) Exercising discretion when engaging in equestrian activities, recognizing a need to avoid situations that create dangerous conditions. This includes maintaining an appropriate safety zone around the equine.
- (f) Following the instructions of any equestrian marshals, in particular the instructions of the EqMIC.

(g) Riders must wear heeled close toed shoes.

2. Failure to fulfill the above responsibilities may result in suspension of the rider's privilege to participate in equestrian activities for the duration of the event.

IV. Equipment Standards

A. Equipment Standards: All equipment must be inspected for use prior to engaging in equestrian combat activities.

(1) Armor requirements: *(Armor is not required for every activity. Activities with specific armor requirements are included in Part V. If not specified, the EqMIC will make the final determination for that event and activity.)*

(a) Helm.

(1) Helms must be of rigid materials (18 gauge mild steel or equivalent). Fencing masks are acceptable for mounted crest combat use only.

(2) Face guards shall prevent a 1-inch (25.4mm) diameter dowel from entering into any of the face guard openings.

(3) The face guard shall extend at least 1 inch (25.4mm) below the bottom of the chin and jaw line when the head is held erect.

(4) All movable visors shall be attached and secured in such a way that there is minimal chance that they will become detached or come open in normal combat use.

(5) There shall be NO major internal projections; minor projections of necessary structural components shall be padded. All metal shall be free of sharp edges. Face guard bars or mesh should not attach to the interior of the helm, unless of structurally superior design and workmanship.

(6) All parts of the helm that might come into contact with the wearer's head shall be padded with a minimum of 1/2 inch (12.7mm) of closed-cell foam or equivalent padding, or shall be suspended in such a way as to prevent contact with the wearer during combat. Additional padding is not required for fencing masks used for mounted crest combat only.

(7) All helms shall be equipped with a chinstrap or equivalent means to prevent the helm from being dislodged or metal contacting the wearer's face during combat. An equivalent might be, for example, a bevor or a chin-cup suspension system. A "snug fit" is NOT an equivalent. The chinstrap shall be

at a minimum a 1/2 inch (12.7mm) in width and shall not be placed in the helm in a manner that could strangle the wearer.

(b) Crests for mounted crest combat.

(1) Crests shall be at least 5 inches in height.

(2) The crest must be constructed so as not to present an undue hazard if a rider should land on it, or a horse step on it.

(3) The crest must be attached in such a way so as to be easily dislodged by a minimal force blow. Velcro or similar methods are recommended.

(c) Neck Armor. The neck, including the larynx, cervical vertebrae, and first thoracic vertebra must be covered by one or a combination of the following and must stay covered during typical combat situations, including turning the head, lifting the chin, etc.

(1) The helm.

(2) A gorget of rigid material or heavy leather, lined with 1/4 inch (6mm) of closed cell foam or equivalent padding.

(3) A camail or aventail of mail or heavy leather, lined with 1/4 inch (6mm) of closed cell foam or equivalent padding.

(d) Body. Foam tipped jousting only- rigid material covering chest and torso. Standard equestrian riding vests are deemed equivalent.

(e) Groin. Foam tipped jousting only- groin area must be protected by sufficient means including saddle or armor.

(f) Hands.

(1) Mounted crest combat- leather gloves.

(2) Foam tipped jousting- hands must be protected. This can include use of a shield, demi or full gauntlets, or equivalent (i.e. vamplate on lance).

(g) Leg, arm, and shoulder protection - armor recommended, but not required.

(h) Shields: The shields must be constructed of rigid, non-brittle, materials. Recommended is 1/2-inch plywood. The edges should be blunt and corners rounded.

(i) Horse. Required for *heavy* mounted combat only. Recommended for jousting.

(1) Eye protection- acceptable eye protection should stand clear from the eye in all directions by 3/4 of an inch.

a. A chanfron incorporating pierced metal cups or grillwork.

b. Blinker style. The lexan/acrylic eye protection used by jockeys and trainers at the racetrack. The blinker must use transparent full eyecups. Partial eyecups are not an acceptable substitute. Eye protection of this sort may be incorporated into a period horse garment providing the garment ensures proper placement of the eyecups at all times.

c. Police Riot gear. Full-faced riot protection made of 1/8 lexan attached to the bridle of the horse.

(2) Poll. Poll protection traditionally used for trailering is adequate to protect the horse from injury. In lieu of commercially produced poll protection rigid material with 1/2 inch of close cell foam must protect the poll of the horse.

2. Weapon requirements.

(a) Single Handed weapons.

(1) Mounted Crest Combat. "Boffer" weapons are to be used in this activity.

a. Base material shall be schedule 40 1/2-inch PVC plastic pipe. Both ends must be capped, but accessible to marshals for inspection' to the

requirement for end caps to the swords.

b. Minimum 1/2-inch closed cell foam padding over all striking surfaces.

c. Minimum diameter of 1 1/4 inch.

d. If quillions are used they should not extend more than 1 inch beyond the hand when held.

e. Thrusting tips are not allowed in mounted combat.

(2) Heavy Mounted Combat. Sturdier 'Boffer' style weapons are used in this activity.

a. Base material may be 1-inch diameter rattan or schedule 40 3/4-inch PVC plastic pipe. If PVC pipe is used as the base material, both ends must be capped.

b. Minimum 1/2-inch closed cell foam padding over all striking surfaces.

c. Minimum diameter of 1 1/4 inch.

d. Cutting edge shall be marked in a contrasting color.

e. Swords shall have a hand guard, such as a basket hilt, quillions, or equivalent.

f. Maximum weight should not exceed 4 pounds.

g. Thrusting tips are not allowed in mounted combat.

(3) Weapons constructed other than as set out above may be approved on a kingdom level basis for use in Mounted Crest Combat or Heavy Mounted Combat. Construction methods for these weapons vary; therefore only weapons equivalent to the weapons described above shall be used. If there is a question regarding equivalency, the KEO shall make the determination.

(4) Mounted Games. Riders may use hand held weapons made of non-brittle materials. All tips and edges should be blunted, *with the exception of spears and javelins (specified below)*.

(b) Lances, spears and javelins.

(1) Foam tipped lances.

a. May be up to 12 feet in total length.

b. The lance shall be constructed in three sections including the tip, middle, and base. The tip and the base will socket into the middle section.

c. Lances must use a foam tip extending at least 22 inches beyond the middle section. Approved foams are expanded polystyrene foam (Styrofoam) or Extruded Insulation Foam, of 2-inch diameter and 2 lb./ft³ density.

d. The middle section consists of a cardboard tube with a 2-inch interior diameter and a maximum of a 1/8 inch side wall.

e. The base section may be made of any non-brittle material. The maximum length of the base section is 45 inches, including a recommended 6 inches extending into the middle section. It is recommended the base section be carved from wood.

(2) Spears and javelins

a. May be up to 9 feet in total length.

b. Spears and javelins may be equipped with *sharp* metal tips.

(3) Quintain and Spear Lances

a. Length is not restricted to that of spears or javelins. May be of historical lengths.

(c) Bows

(1) Bow poundage is not to exceed 35 pounds for use with target arrows and not to exceed 50 pounds for combat arrows.

(d) Arrows

(1) All arrows should be inspected prior to each use.

(2) Combat arrows must be according to Society standards.

(3) *Crossbows – There is no crossbow shooting off of horseback in the SCA.*

3. Tack. Riders are required to use tack sufficient to allow them to maintain control of their equine. Such tack traditionally includes use of a bridle and saddle, however other combinations of tack may be allowed upon demonstration of control of the horse to the satisfaction of the EqMIC.

V. Special Authorizations and Equipment Requirements

Games/Activities: The EqMIC shall determine the safety and equipment requirements for games and activities at an event or practice. Exceptions are Experimental Activities and Special Authorizations, which have the following restrictions stated below.

Experimental Activities: For activities designated as experimental, only the Kingdom Equestrian Officer (KEO), or marshals appointed by the KEO, may approve riders to participate in this activity.

Special Authorizations: Special authorizations may be issued by any Outlands EQ Marshal. Marshals may only authorize riders in activities they are themselves authorized.

Exceptions may be granted by the KEO. The following activities require special authorizations:

A. Mounted Crest Combat

1. Specific Armor Requirements. Helm, crest, neck, and hands. (Details can be found in section IV.A.1.)

2. All blows must be aimed at the crest. Failure to control blows may result in a forfeiture of the match.

3. Speed is not an element of this activity. Riders are to avoid any type of charging or galloping during a bout.

B. Mounted Archery (both mounted and chariot archery)

1. Specific Armor Requirements. None.

2. The archery equipment (bows, arrows, targets, etc.) and range must be inspected by a warranted SCA Archery Marshal.

3. For chariot archery, the horse and driver must have met any required authorizations for driving, but non-equestrian authorized archers shooting from a chariot driven by an authorized equestrian are permitted.

4. Archery Course requirements.

(a) A riding/driving lane approximately 4 yards wide, within a larger area that is safely cordoned off from spectators.

(b) A barrier at least 10 yards of any target to prevent danger from the “bounce back” of arrows.

(c) Beyond the target area there must either be a wall, archery-proof net, or a clear area a minimum of 100 feet long and 60 feet on either side of target. The

- clear area for multiple targets used in in-motion shooting may be overlapped.
5. Equestrian archery is to be done with inanimate targets only. Both stationary and in motion shooting is permitted. For stationary shooting activities, a footman or page may hold the horse from the offside.
 6. Bow poundage is not to exceed 35 lbs for use with small game blunts and regulation target points not to exceed 50 lbs for all other types of arrows. Golf tube arrows, HTM blunts, small game blunts, Markland type and regulation target points are allowed.
 7. Chariot Archery - The horse and driver must have met any required authorizations for driving, but non-equestrian archers shooting from a chariot driven by an authorized equestrian is permitted. These non-equestrian archers must have signed any equestrian waiver in use to signify that they are aware of the risks involved in equestrian sports.

C. Jousting

1. Specific Armor Requirements: Helm, neck, body, hand, and groin. (Details can be found in section IV.A.1.). This activity may be done with or without a shield.
2. Barrier
 - (a) Presents a visual impediment so that horses will not willingly encounter it.
 - (b) Constructed so that it will collapse easily in the event of a horse or rider contacting it.
 - (c) Recommended height of the barrier is between 48 and 60 inches.
 - (d) Minimum length of 100 feet. There shall be no spectators at either end.
3. Conduct
 - (a) At each event that jousting will take place, each horse will make practice passes down the list to ensure that they are comfortable with the activity on that day.
 - (b) Riders should have at least two lances available in order to be able to place one at each end of the list, and should arrange for suitable assistance to quickly prepare for each pass and to assist with the removal of broken tips. (Three lances are recommended)
 - (c) Tilt conventions:
 - (1) Check to make sure the opponent is prepared.
 - (2) Prior to commencing down the lane; present a good target to your opponent by presenting a nearly flat shield face throughout the pass.
 - (3) Aim for the shield and try to avoid contact with your opponent. However, chest, shoulder, and head are considered legal targets.
 - (4) Be prepared to avoid contact if your opponent appears to be having difficulty controlling their horse or equipment.
 - (5) Only a light amount of force is required to shatter the foam tips, therefore riders must seek to minimize impact. Excessive force will not be tolerated.
 - (6) Riders must be sure not to couch the lance. (Do not brace the lance under the arm)
 - (7) Once the match is announced each rider should proceed to their end of the tilting lane and prepare for the pass. Once both riders have signaled their readiness the marshal shall signal the commencement of the pass
4. SCORING: The following are scoring suggestions. Methods of scoring the jousts will be left up to the EqMIC.

(a) Match may consist of three passes. A winner for each pass is determined and

the best two out of three passes decides the match. In the event of a tie after three passes successive passes may be taken until the tie is broken.

(b) Standard scoring: The winner for each pass may be determined according to

the following scoring with the better result winning the pass. If both participants have identical results, the pass will be considered a tie. If both riders break, but do not shatter their lance tips, the rider that breaks his or her tip closer to the middle cardboard section shall win the pass.

(1) Best result: Lance tip shattered into multiple pieces.

(2) Second best result: Lance tip broken as a single piece.

(3) Third best result: Lance tip contacts the opponent's shield (or their opponent if jousting without shield), but fails to break.

(4) Fourth best result: Lance tip misses their opponent's shield (or their opponent if jousting without shield).

(c) Additional scoring options for jousting without shields may include scoring hits as in heavy weapons fighting.

5. Additional Rider requirements

(a) The rider must demonstrate understanding of the signaling process used to indicate readiness to pass the opponent in the lanes; proper shield/target presentation; the ability to hit an opponent's strike zone in the jousting lane; the ability to take a hit; understanding when to raise and lower the lance during the joust; and safe lance-handling techniques with ground crew.

(b) The rider must be able to execute a safe technique for disengaging a lance from an opponent.

(c) Before jousting against another person, the rider must demonstrate he/she is

able to "pull" their lance so as to prevent the cardboard from hitting his/her opponent in the joust. This may be demonstrated by striking a quintain with a quintain lance with resulting hit moving the quintain less than 90-degrees (1/4 turn). SCA Style Jousting allows only for the SCA Style Jousting allows only for the Styrofoam to make contact with the opponent. While cardboard tubes do make contact with the opposing rider and break from time to time, impact to the cardboard is to be discouraged.

D. Driving or Chariot

(1) A bridle with reins attached and passed through the turrets must be in place whenever a horse is put to a vehicle. Violation of this rule is grounds for removal from site.

(2) Hitched horses shall not be left unattended. Violation of this rule is grounds for removal from site.

(3) An authorized driver shall be on the vehicle and have access to the reins whenever the vehicle is in motion.

(4) The driver shall be the first person on the vehicle and the last person off.

(5) Period exceptions to rules number 3 and 4 such as led vehicles and postillion-driven vehicles are at the discretion of the Kingdom Equestrian Officer, on a case-by-case basis.

(6) Drivers are responsible for having an adequate numbers of grooms (defined as intermediate ground crew capable of rendering assistance).

- (a) Singles do not require a groom.*
- (b) For other hitches, there shall be one groom per every two horses or fraction there of.*
- (7) Intentional cantering of hitched horses is not permitted.*
- (8) All driver, prior to every event or practice, shall ensure their equipment is safe and in good working order.*
- (9) Each driver accepts full responsibility for the condition of his/her vehicle, harness, horse (s), and other equipment and has the obligation to him/herself, the Marshal, and all opponents to see that his/her equipment meets all Society and Kingdom requirements.*
- (10) Equestrian Marshals in Charge may refuse or restrict the participation of any horse/driver/vehicle/harness combination.*
- (11) There shall be a driving authorization in the Kingdom of the Outlands.*
- (12) Drivers shall demonstrate the knowledge and ability to hitch and harness.*
- (13) Drivers shall demonstrate the ability to drive forward, turn, and change directions at the walk, slow trot/jog, and working trot.*
- (14) Drivers shall demonstrate the ability to drive forward at a strong/fast/extended trot without breaking gait.*
- (15) Drivers shall demonstrate the ability to halt and back.*
- (16) Authorized drivers may take passengers under the following conditions:*
 - a. The passengers must have signed the equestrian waiver.*
 - b. Passengers under the age of 18 must wear a helmet.*
 - c. Passengers under the age of 10 may not touch the reins nor act as a groom or groomsman.*
 - d. An authorized driver must be in the vehicle at all times while a passenger is in the vehicle.*

Glossary

1. Rigid material:

- a. Steel of no less than 18 gauge, or aluminum of no less than 1/8 inch (3mm).
- b. Other metals of sufficient thickness to give similar rigidity to those listed above to include treated steel or aluminum.
- c. High impact resistant plastics such as ABS or polyethylene of sufficient thickness to give similar rigidity to those listed above.
- d. Heavy leather (as defined above) that has been hardened in hot wax, soaked in polyester resin (properly catalyzed), or treated in such a manner as to permanently harden the leather.
- e. Two layers of untreated heavy leather.
- f. Other materials equivalent to those items listed above (Any armor of unusual construction or material must meet the approval of the Kingdom or Principality Earl Marshal or their designated deputy.)

2. Non-brittle: Shall refer to material that will not break or shatter upon being subjected to a stiff strike.

Appendix 1- Insurance Ordering Instructions

The Equestrian Marshal in Charge is responsible for ensuring that the SCA

equestrian insurance policy has been activated whenever an equine attends an SCA event.

Insurance Fees

Current ordering instructions and fee schedules can be found at www.sca.org/docs. Scroll halfway down the page and find it under Insurance Related Info. Read both documents and follow the directions.

<http://www.sca.org/docs/insurancecert.pdf>

Insurance Timeline

45 days before the event: The EqMIC should verify that the event coordinator has ordered the equestrian insurance.

30 days before the event: Both the request to activate the insurance and the payment must have reached the SCA corporate office 30 days before the event in order to avoid the \$100 late fee.

Less than 30 days before the event: It is recommended the EqMIC should send the KEO a copy of the insurance certificate prior to the event.

Insurance for Practices

Multiple regularly scheduled practices may rely on a single equestrian insurance certificate (and a single activation fee) for an entire calendar year. The following restrictions apply in this case, and must be specified when the certificate is ordered:

1. The location of all practices must be the same.
2. The dates for all practices must be specified in advance.
3. The times must be single contiguous time spans of not more than 12 hours occurring on non-consecutive days.

Any variations from the pre-determined practice schedule would constitute a unique event and would require an independent activation of the equestrian insurance policy. For more information: <http://www.sca.org/docs/eq-insurance.pdf>

Insurance for Parades and Demos

Ordering an Equestrian Insurance Certificate is mandatory for parades and demos where

horses and riders are representing the SCA. When ordering the Insurance Certificate, use

the name and address of the sponsor of the parade or demo.
